NOTIFICATION OF ROADSIDE AIRCORE DRILL PROGRAM

The Shire is in receipt of correspondence from IGO Ltd(IGO) notifying the Shire (and local community) of possible mineral exploration drilling along road reserve verges at its Lake Campion Project, located in the Wheatbelt of Western Australia (subject to Mines, Industry Regulation and Safety approval).

IGO Ltd (IGO) is an ASX listed exploration and mining company with a strategic focus on high quality assets of scale and longevity, and an evolving strategy to align the business to energy storage.

Whilst IGO has provided extensive details concerning the drilling (which is available for inspection at the Shire office) a summary is as follows

- The 3 nominated rural roads are Hawkins, Badgerin Rock and Dukin West Road.
- Drilling will be carried out by Bostech Drilling Australia using an aircore drill rig and support vehicles from late-May to June 2024 with drilling expected to take 3 to 4 days to complete.
- Drill holes will be located on road reserve adjacent to fence-lines, with drill holes spaced between 150m and 1km apart and drilled to depths between 40m and 170m.
- Drill cuttings and samples will be captured in bags to be removed from site and disposed of appropriately at the completion of drilling.
- Drill waste and ground water will be contained in a compact zero impact trailer before being transferred to an auxiliary pod or barge and disposed of in an environmentally friendly manner.
- Upon completion of drilling, all drillholes will be capped 30cm below surface using a concrete hole plug and covered with dirt immediately following drilling, to ensure that native fauna cannot fall into the drill hole. (It is a legislative requirement that rehabilitation is undertaken such that all areas impacted by drilling are restored to a condition which will ensure that the area ultimately reverts to the condition that existed prior to undertaking the drilling and does not leave any hazards that would impact on existing land use).
- Drilling sites will have appropriate traffic, fire, and safety management arrangements.

For more information, including maps, please visit the Shire website.

OFFICE PHONE LINE ISSUES

Please be aware, we are still currently experiencing issues with our Administration Office phone lines.

The Office has 4 different phone lines and these are below. We are having difficulties with our main office phone number (line 2), please try one of the other 3 numbers if you need to contact the office, however, our connection is still intermittent.

Line 1 - 9684 1275

Line 2 - 9684 1219

Line 3 - 9684 1125

Line 4 - 9684 1124

Alternatively, please email shire@koorda.wa.gov.au or message via our Facebook page.

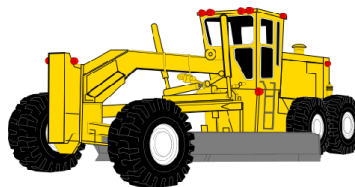

Telstra have advised a technician will be out this week to investigate the issues.

LOCAL ROADWORKS

Koorda Kulja & Burakin Wialki Road.

Sealing works are also scheduled for next week on the above roads.

Please expect delays when travelling through roadworks. Please be aware and abide by the road work speed limits. We thank you for your patience.

TELEVISION BROADCASTING UPDATE

Please be advised that we are currently experiencing various issues with our tv rebroadcasting equipment. We are working closely with our service providers, however as they are based overseas, they are unable to visit the site.

The 6 monthly service of the equipment is almost due. If repairs are unable to be carried out off site, we will work towards scheduling this service ASAP so the repairs can be carried out.

We appreciate this is a frustrating situation and thank the community for their patience while we work to resolve this.
