**Background:**

In accordance with Section 2.7(2) of the Local Government Act 1995, Council is to determine the Shire’s policies. The development and management of Council policy is an ongoing process.

It is important that Council policies are kept up to date and are reviewed on a regular basis under the direction of the Chief Executive Officer. If any changes or amendments are required these are brought to Council for endorsement.

Staff, in consultation with the Governance Committee, are conducting a major review of the Shires Policy Manual and propose improvements for Council’s consideration. This report presents the changes within the policy manual.

This report presents the policy review that has been undertaken by Staff, in consultation with the Governance Committee to update the following:

- Rebranding changes to reflect the new logo.
- Updating of policy sections and numbering to remove redundant numbering and policy sections (A = Administration, EM = Elected Members, F = Finance, G = Governance & Compliance, and W= Works & Assets).
- Separating the existing Policy Manual into two (2) separate sections. One section being Strategic Policies (Council related) and one new section, Operational Policies being those policies that specifically fall under the functions of the CEO as defined in the Local Government Act 1995, Section 5.41 Function of the CEO.
- Amendments to be made to existing policies.
- Introduction of new policies.
- Rescindment of outdated policies.

**Background:**

Each local government is required to develop and adopt an operating (municipal fund) budget for the succeeding financial year as per the Local Government Act 1995 (6.2) and in accordance with the Financial Management Regulations 1996 (part 3) and Australian Accounting Standards.

As such, preparation of the annual budget needs to consider the income and expenditure for the next financial period in the context of planning for the future.

The annual budget estimates expenditure for operations, services and assets and projects income including grants, fee and charges and earnings, but excluding rate revenue, to define any deficiency. It needs to define the general rates to be raised, fees and charges, any borrowing obligations, funds for reserves and the local government’s land transactions and trading activities, if applicable.

**Comment:**

The most common approach adopted by local governments in addressing the legislative budget development requirements is to primarily consider financial implications and restrictions and in effect undertake a process of rationing resources for a business-as-usual outcome.

The intent of the approach proposed (attached) is to prioritise the delivery of outcomes for the community and facilitate Council develop and consider new initiatives, uncompromised by financial requirements and constraints.

The necessary financial considerations will be introduced later in the process, to refine the timing and funding options of projects. It is a process that emphasises strategy over accounting and as such better harnesses the experience and insights of Council and puts community outcomes at the forefront.

The proposed timeframe sets out to align the development of the Shire’s budget with the review of the Integrated Strategic Plan and Resourcing Plan. The strategies and tactics encompassed in the Integrated Strategic Plan will flow through and be developed in concert with the budget while the adopted financial position for 2024-25 will provide the base year for the Resourcing and Asset plans.

The timetable provides in the best-case scenario for council to be in a meeting of Council, with contingencies to enable final at the latest at the August 21 meeting, ahead of the August 31 deadline.

**Consultation:**

Lana Foote, Deputy Chief Executive Officer  
Darren West, Works Supervisor

**Statutory Implications:**

As per the Local Government Act 195 (6.2) and Financial Management Regulations 1996 (part 3) Council is required to develop and adopt an annual municipal fund budget for each financial period and submit such to the department of Local Government by August 31 of the relevant period.

Under the provisions of the Local Government Act 1995, it is necessary to review delegations at least annually. In April 2023 an extensive review was undertaken by Council.

#### Comment:

A review of the Delegations Register has found a small number of minor required amendments, as would be expected given the comprehensive review undertaken 12 months prior.

The existing Delegations Register is attached for reference, however given the comprehensive nature of the document (85 pages), the proposed amendments are detailed in the following table:

### **Background:**

CLE Town Planning + Design consultants, on behalf of CBH, lodged a proposed Scheme Amendment to allow the development of a CBH office complex on the western portion of Lot 19 Orchard Street, Koorda currently zoned Residential. **Figure 1** shows the location of the proposed amendment property.

**FIGURE 1 – LOCATION PLAN**

Source: Landgate, ESRI, Planwest

**Comment:**

The Council is keen to provide for the proposed CBH development in Koorda and has supported the Scheme Amendment to insert two new ‘Additional uses’ on the subject land to allow both the CBH office and the workforce accommodation. The Additional uses will make these uses permissible - notwithstanding that an office is not ordinarily permitted in a Residential zone.

A workforce accommodation complex, housing 24 workers, has already been approved under clause 4.4.2 of the Scheme (uses not listed) and development works are currently under way.

The nature, appearance and movement patterns of a typical workforce accommodation development usually involves activities and movements that often do not sit comfortably within a residential area. The proposed site is currently unused (apart from the building works of the workforce accommodation units) and has no existing sensitive uses within close proximity. The adjacent uses on Orchard Street include a drive-in cinema and drum recycling operation – both of which have been operational for decades.

The logical location for an office complex would normally be in the Town centre zone, however there are no sites available that would have the capacity for the proposed development.

The details of the siting, landscaping, bushfire measures, plans, elevations, servicing and access issues can be dealt with at the Development Approval (DA) stage.

On request, the Amendment documentation has been modified to discuss various issues that may impact this proposal. Most changes have been addressed, however there are still outstanding issues

that may be of concern in the development of the project - but are not considered as 'showstoppers' for this Amendment.

These issues include;

1. The Engineering Services Report (McDowall Affleck Pty Ltd) states that the *geotechnical report also indicated possible shallow rock that their borehole auger was not able to penetrate*. This observation may have a serious impact on the capacity of the proposed drainage system to adequately deal with effluent disposal and stormwater on site in all-weather events. The Report states that the office component has not been included in the wastewater or drainage calculations. Although this is reasonable (as a DA for the office component has yet to be lodged and determined), the Council may be concerned that, in the event that drainage overflows into the public road and drainage system, it would require more of the Council's resources. This issue was not addressed in the Scheme Amendment report.
2. The Engineering Services Report states that there is doubt whether the existing power infrastructure has the capacity to service the proposed development. The Report states '*The forecasted capacity is estimated to remain at this capacity until 2029 noting that there is currently no plan for increasing this capacity for the next 6 years*', but then states that *the site can ultimately be serviced with overhead power considering possible power works to service the site*. Although this is not an issue that needs to be addressed at the Scheme Amendment stage, it is a issue that must be resolved at the development stage to ensure the extra draw on the power grid does not impact other town users, and an issue that should have been addressed in the Scheme Amendment report.
3. The Scheme Amendment report includes 2 items that will be provided as 'subsequent information'. These include Bushfire Management Plan and Plans and Elevations. It was suggested that a landscaping plan and access upgrade details also be subsequently provided. The landscaping plan needs to address the appearance of the accommodation from the main access road into Koorda (Aitken Road). The Orchard Street access needs to ensure minimal disruption to the Council's drainage system and minimise Council's resources on road upgrades. Both of these items can be addressed as part of the development process, but could have been mentioned in the Scheme Amendment report.

### Consultation:

The Amendment was presented to the Council on 15<sup>th</sup> November 2023 to initiate the Amendment. The documentation was subsequently forwarded to the EPA (Environmental Protection Authority) for clearance prior to advertising.

1	31/1/24	Spark - Koorda	Support.	Note the submission.
2	8/2/24	Main Roads WA - Perth	No comments.	Note the submission.
3	18/3/24	DPIRD - Perth	Supports the proposal. Advises that, if the accommodation is to be connected to the Koorda sewer, then the office should be too.	Note the submission and advise the proponent of this advice.
4	18/3/24	Water Corporation (WC) - Perth	Developer is required to provide water and sewerage services. 111m of water main extension is required to service the new facility. WC Infrastructure contribution and fees may be required prior to approval.	Note the submission and advise the proponent to contact the WC for the satisfactory provision of services and associated costs.
5	4/4/24	DFES - Perth	DFES notes the absence of a BMP (Bushfire Management Plan) as required by SPP 3.7. A BMP will need to be assessed by DFES prior to any development approval.	Note the submission and advise the proponent that a BMP was prepared for the accommodation DA (to the satisfaction of the local government), a copy of which will be forwarded to DFES.

**Statutory Implications:**

The subject land is zoned Residential in the Scheme. **Figure 2** provides an extract from the Scheme Map.

**FIGURE 2 – EXTRACT FROM SCHEME MAP**

Source: DPLH, Landgate, Planwest

The term 'Workforce accommodation' is defined in the Scheme but is not listed in Table 1 – Zoning Table.

Clause 4.4.2 states that *'If a person proposes to carry out on land any use that is not specifically mentioned in the Zoning Table and cannot reasonably be determined as falling within the type, class or genus of activity of any other use category the local government may (inter alia) – b) determine that the use may be consistent with the objectives of the particular zone and thereafter follow the advertising procedures of clause 9.4 in considering an application for planning approval'*.

In February 2023 the Council approved a DA application for the workforce accommodation under the provisions of this clause.

An 'Office' use class is an 'X' use in a Residential zone. An 'X' use *means a use that is not permitted by the scheme.*

It has been determined that, rather than rezoning the subject land to a zone that permits an office use, an 'Additional use' will be allowed on this particular property.

Clause 4.5 – 'Additional uses' of the Scheme states; *'Despite anything contained in the Zoning Table, the land specified in Schedule 2 may be used for the specific use or uses that are listed in addition to any uses permissible in the zone in which the land is situated subject to the conditions set out in Schedule 2 with respect to that land.'*

This Amendment will insert additional uses into Schedule 2 of the Scheme to allow an office and workforce accommodation (amongst other uses permitted in the Residential zone) on that portion of the subject land shown on the Scheme Amendment map.

This method of allowing the proposed uses avoids creating a precedent for other similar requests for offices in a Residential zone.

Figure 3 shows the area of the subject where the additional uses will be permitted.

2.1 - Our local economy grows in a sustainable manner

4.1 - Open and Transparent Leadership

<b>Risk Matrix Rating</b>	Low (1)
<b>Key Controls (in place)</b>	Land Administration Act and road closure procedures
<b>Action (Treatment)</b>	Nil
<b>Risk Rating (after treatment)</b>	Adequate

### Financial Implications:

Shire rates for the subject land will need to be adjusted following a revised Valuer General valuation on completion of the project.

Road upgrades may be necessary to cater for the increased traffic on Orchard Street.

The applicant has been advised of a Scheme Amendment fee to cover the processing and advertising costs.

### Conclusion:

There are 2 issues raised in the 5 submissions received during the advertising period. Both of these issues relate to any proposed development on the site.

The first issue is the provision of **water and sewerage services** for the proposed development. This advice should be forwarded to the proponent in order that satisfactory arrangements can be made with DPIRP and Water Corporation for the servicing of any future development on the site.

The second issue is the preparation and approval of a **BMP** (Bushfire Management Plan). It should be noted that a DA (Development Approval) was required for the development of the workforce accommodation on the subject land (approved under clause 4.4.2 of the Scheme). The DA was accompanied by a BMP prepared by James Terenciuk, Bushfire Planning Practitioner (copy attached). This BMP was not part of this Amendment process as the new addition of the CBH office component does not require a BMP.

Any subsequent DA determination may include a requirement for plans and elevations, a landscaping plan and access upgrade details to the satisfaction of the local; government.

The landscaping plan needs to address the appearance of any development from the main access road into Koorda (Aitken Road).

<b>Attachments</b>	<a href="#">Email from Main Roads RAV 7 Request for Support</a> <a href="#">Qube Bulk Pty Ltd Application to MRWA</a>	

#### Background:

Main Roads WA Heavy Vehicle Services have received an application (from Qube Bulk Pty Ltd) to permanently add 2 Shire of Koorda managed roads to the Restricted Access Vehicle (Tandem Drive) Network 7 and increase the Accredited Mass Management Scheme to Level 3.

The roads subject to the request were previously among those endorsed by Council to temporarily be RAV7 to facilitate the harvest period between 1 October, 2023 to January 31, 2024. They are:

Number	Road	Origin	Terminus
4110006	Kalannie - Kulja Rd	Kalannie - Kulja Rd (0.00)	Burakin - Wialki Rd (14.33)
4110140	Burakin - Wialki Rd	Kalannie - Kulja Rd (6.15)	LGA Boundary Line (36.63)

#### Comment:

The change from RAV6 to RAV7 permits an increase in trailer combinations but up to the same total length at 36.5m. The increase in the AMMS for Tandem Drive RAV7 roads from Level 1 (as current) to Level 3 is an increase of 18.5 tonne (115t to 123.5t).

Council previously resolved (April 2019) that any application beyond RAV 4 is to be referred to Council for consideration. In addition, the Shire Work Supervisor has expressed concerns as to the potential damage to the roads with the proposed changes and the resulting increased maintenance cost.

However, as detailed in correspondence from MRWA, The Road Traffic (Vehicles) Act 2012 provides authority for the Commissioner of Main Roads to approve road access to RAVs and does not provide authority for Local Governments, or other road managers, to approve or decline RAV access.

MRWA HVS intends to conduct an on-site assessment of the relevant roads and has requested from the Shire details regarding estimated traffic volumes and comments on local circumstances including road conditions, planning conflicts and development issues, which will be addressed by the Shire Works Supervisor within the requested timeframe (4 weeks from receipt of the 4 April email).

While Council does not have an approval role within existing legislation, there is the opportunity for Council to express its support or otherwise to the proposed changes via a OCM motion and additional correspondence as deemed appropriate to accompany the Works Supervisor response.

**Consultation:**

Darren West, Works Supervisor  
Main Roads WA Heavy Vehicle Services

**Statutory Implications:**

The Road Traffic (Vehicles) Act 2012 provides authority for the Commissioner of Main Roads to approve RAV status and access.

The Land Administration Act 1997 Section 55 and Local Government Act 1995 Section 3.53(2) provides the Shire management responsibility for local roads.

**Policy Implications:**

No policy exists at this time however resolution of April 2019 was for all requests exceeding RAV4 to be considered by Council.

**Strategic Implications:**

Shire of Koorda Integrated Strategic Plan 2022  
2.3.2 - Maintain an efficient, safe and quality local road network.

<b>Risk Matrix Rating</b>	Moderate (8)
<b>Key Controls (in place)</b>	Reallocation of road grant funding.

### Background:

At the March Ordinary Meeting, Council decided to proceed with the bowling green construction project at the Recreation Centre subject to a number of conditions.

These conditions included extension of grant funding; confirmation of tendered pricing and quotes within parameters; and Council to be presented final architectural plans and elevations.

In concert with the proposal proceeding, a consultation process was undertaken by 150square with various stakeholders including the Koorda Sports Club Inc. and representatives of other local winter and summer sports clubs.

The purpose of the consultation was to assist Council to define a preferred management model for the redeveloped Recreation Centre that will facilitate the relocation of the Koorda Sports Club and provide a contingency should the club decide to remain at its existing Greenham Street premises.

### Comment:

Following extensive consultation, Caroline Robinson from 150square held a workshop with Council on 8 April to work through the various potential Recreation Centre management models.

The workshop defined a preferred management model and an alternative should the requirements of the first option not be able to be achieved. The consultation process and the preferred and alternative models are detailed in the attachment under a separate cover.

Also outlined in the attachment are key positions that need to be endorsed by Council in regard to the ongoing status of the bowling green project; options for Koorda Sports Club building; provision of future golf club facilities.
