As no public submissions were received, the Shire of Koorda Integrated Strategic Plan (comprising of the Strategic Community Plan and Corporate Business Plan) was adopted by Council at the April 2022 Ordinary Council Meeting as per resolution 060422.

OUR VISION

To build a vibrant and sustainable community with shared social values, in which we can live and work in harmony with our environment.

OUR HISTORY

Approximately 240km and 3 hours' drive north-east of Perth situated along the popular 'Wheatbelt Way' self drive trail, Koorda's main industries include wheat, coarse grain and sheep farming. During springtime experience remarkable wildflower displays, with some species unique to the area.

Koorda is famously referred to as 'Corn Dolly Country,' attracting sightseers wanting to learn more about the ancient tradition of creating 'dollies' from stalks and husks of wheat. In 2019, Koorda adopted the catch phrase 'Drive in, stay awhile'.

The town offers great facilities for visitors to enjoy, from its wonderful Wheatbelt scenery, local attractions, museums and Drive In theatre, to sporting recreational services such as a golf course, tennis courts, lawn bowls, children's playgrounds, skate park and much, much more. There are numerous scenic areas to stop at, most with public BBQ and toilet facilities. Mollerin Rock, Newcarlbeon, Koorda Native Flora Reserve and Badgerin Rock are popular spots to enjoy the surroundings and perhaps catch some of the local inhabitants.

OUR VALUES

We will conduct business and gain reputation for:

- Being a community that is friendly, approachable, fair minded and responsive
- Being good stewards of our environment and heritage
- Having a strong sense of and identification with our community
- Acting with honesty and integrity

INTEGRATED PLANNING AND REPORTING FRAMEWORK

This document integrates the Strategic Community Plan and Corporate Business Plan elements of the WA Local Government Integrated Planning and Reporting (IPR) Framework.

The diagram below lists the documents that make up the Shire of Koorda Integrated Planning and Reporting Framework and demonstrates the importance of this document which sets the community's aspirations and council priorities for all the other plans.

The IPR Framework is based on

- The State Government's Blueprint for the region and other relevant policies, plans and strategies from the State and Federal Governments.
- Extensive community engagement on what is important to the people that live within our Shire.
- Input from Elected Members and Staff based on feedback they have received and their strong desire to deliver positive outcomes for their community.
- Current partnerships and projects already being delivered.

PROGRESS REPORTING

The Shire of Koorda has adopted a traffic light based Quarterly Update to report progress to Council and the Community against their documented commitments. In addition, results are formally communicated to the community annually via the legislated Annual Report.

IPR REVIEWS

This Integrated Strategic Plan will be subject to a major review requiring extensive community engagement in 2025 as legislated. In addition, council priorities will be reviewed and updated annually to reflect any changes to regional and local priorities, the budget and to service levels.

WHAT OUR COMMUNITY TOLD US

The following provides a summary of the community priorities emerging from the various engagement forums.

The **peaceful lifestyle, community spirit, caring and supportive locals, facilities, and community safety and security** were recurring reasons that people value living in the Shire.

The **lack of suitable rental accommodation and housing stock** to attract business and workers to the towns.

The need to consider **how to best engage with and support volunteer groups to attract young people** and reduce volunteer burn-out.

The **importance of attracting community minded people, targeted skills, industry and boutique business** to the town and the region.

A **safe and efficient road and footpath network**.

The **opportunities presented by potential mining operations** in neighbouring shires.

The importance of the **local shop and sporting club**, as meeting places for locals.

Access to health services and support for our aging population.

The **importance of and potential to expand local tourism via the look and feel of the town and the unique rural experience** that can be offered.

The opportunity that recent funding provides **to improve the look of the town and make it more inviting to visitors.**
